

Virtuon and Toplab^{PLUS}
Optimum hygiene and cleanliness

... à la carte.

All the best qualities in one panel

Trespa guarantees long lasting optical quality and hygiene

In areas where hygiene and cleanliness are important, surfaces need to be made from top quality materials. Basic requirements are long lasting surface hygiene, impact and scratch resistance as well as flexibility and ease of use. Besides these, aesthetic qualities can make a significant positive contribution to the ambience experienced by employees and visitors. All these benefits - and more - are built into Athlon, Virtuon and TopLab^{PLUS} - top products from Trespa International.

- Long lasting hygiene at optimum levels
- Always easy to clean
- Minimum maintenance costs
- Optically attractive for many years
- Flexible in use

Heat Resistant

Moisture Resistant

Versatility

Virtuon and Toplab^{PLUS} meet the most stringent requirements

Tough, smooth and very resistant

Trespa International's proprietary EBC technology produces scratch resistant surfaces with a smooth microstructure of high resistance in brilliant colours and metallic effects.

Lasting reliability and hygiene

The photographs shown have been taken with the aid of a Scanning Electron Microscope. They clearly demonstrate the difference between a surface produced with Trespa EBC technology (Trespa Virtuon and Trespa Toplab^{PLUS}) and a surface of traditional melamine. The melamine surface clearly shows cellulose fibres. The surface structure of Trespa Virtuon and Trespa Toplab^{PLUS} does not contain any cellulose. This gives Trespa Virtuon and Toplab^{PLUS} their lasting reliability and hygiene. Even the last remnants of dirt can be easily removed.

Lasting hygiene and ease of cleaning; see, compare and judge for yourself!

	Athlon (melamine)	Virtuon (EBC)	Toplab^{PLUS} (EBC)
Safe to touch – skin and foodstuffs	+++	+++	+++
Effective and simple cleaning:

Biological stains	+	++	+++
Acids and bases, concentrated	+/-	++	+++
Effectiveness of disinfectant and decontamination	++	+++	+++

- Insufficient +/- reasonable + acceptable ++ good +++ excellent

Micro-organisms and dirt are given no opportunities

Virtuon and Toplab^{PLUS} have no pores in core or surface.

A key advantage is that micro-organisms and dirt cannot collect inside the material – guaranteeing lasting hygiene.

Trespa International has developed flexible systems for every possible application. A large choice of panel sizes, corner profiles and systems help to avoid un-hygienic seams. Wherever seams, corners or connections to adjoining materials cannot be avoided, Trespa International offers perfect solutions. From surface and wall cladding to complete interiors for all buildings

and rooms where hygiene and cleanliness are crucial: hospitals, laboratories, swimming pools, kitchens, airports etc. Trespa offers a cost-effective, hygienic solution.

- **Large panel sizes, reducing unhygienic seams to a minimum**
- **Perfect solutions for unavoidable seams, joints and corners**
- **No capillaries for dirt and micro-organisms – not even in hinges**
- **Furniture parts can be designed without hollow parts or capillaries**

When put to the test; Virtuon and Toplab^{PLUS} pass with ease!

Even after prolonged use the EBC-surface of Virtuon and Toplab^{PLUS} retains excellent cleanability.

Quality.

Trespa International BV

Trespa International BV specializes in high quality panel material for façade cladding and interior use. Trespa has both the expertise and the means to develop products for specific segments of the market.

Trespa is continually looking for ways to protect the environment even more effectively.

Four perfect product lines

Production of the façade cladding material Trespa Meteor is based on unique, patented techniques, which guarantee excellent weather resistance and colourfastness.

Trespa Athlon, which offers you outstanding moisture resistance along with scratch and wear resistance, is particularly suitable for interior use. Trespa Virtuon is aesthetically pleasing and the perfect product for interior applications where durability, hygiene, cleanability are required. And Trespa TopLab^{PLUS}, highly resistant to chemicals and designed for use as laboratory worktops, completes the product programme.

ISO 9001

Trespa guarantees quality of both products and services. We offer our customers optimal technical support as well as straightforward documentation. Proof of this approach is the award of the ISO 9001 certificate.

Whatever your requirements, Trespa offers a full support service. Please contact us for further information.
